Volume 7

Orthotics—Lower Extremity: Foot & Ankle

Impression techniques and model modification of a custom-molded ankle-foot orthosis for the idiopathic clubfoot. Athearn, James N, CO; Case, Justina S, CO; Roberts, John M, MD. 1995;7:3:91-5.

Numerical comparison of 3-D shapes: potential for application to the insensate foot. Borchers, Robert E, MS; Boone, David A, CP; Joseph, Aaron W, MS; Smith, Douglas G, MD; Reiber, Gayle E, PhD. 1995;7:1:29-34.

A review of thermoplastic ankle-foot orthoses adjustments/replacements in young cerebral palsy and spina bifida patients. Supan, Terry J, CPO; Hovorka, Christopher F, CO. 1995;7:1:15-22.

Orthotics—Lower Extremity: Knee

Application of a lateral heel wedge as a nonsurgical treatment for varum gonarthrosis. Giffin, J Robert; Stanish, William D, MD, FRCS(C), FACS; MacKinnon, Scott N, MSc; MacLeod, Donald A, MSc. 1995;7:1:23-8.

Clinical outcomes of the Townsend knee orthosis. Jennings, Jason M, CO; Barringer, William J, MS, CO; Trexler, Gary S, CO. 1995;7:3:87-90.

Orthotics—Seating Systems

Seating orthosis design for prevention of decubitus ulcers. Carlson, J Martin, MS, CPO; Payette, Mark J; Vervena, Lisa P, MS. 1995;7:2:51-60.

O&P Research

Conference report: an agenda for medical rehabilitation outcomes research. Fuhrer, Marcus J, PhD. 1995;7:1:35-9.

Measurement characteristics and sources of measurement error. Gwyer, Jan, PhD, PT. 1995;7:3:100-4.

Outcomes measurement: a primer for orthotic and prosthetic care. Hoxie, Lance O. 1995;7:4:132-6.

The research sample, part I: sampling. Lunsford, Thomas R, MSE, CO; Lunsford, Brenda Rae, MS, MAPT. 1995;7:3:105-12.

The research sample, part II: sample size. Lunsford, Thomas R, MSE, CO; Lunsford, Brenda Rae, MS, MAPT. 1995;7:4:137-41.

Residency research, part I: why should an orthotic/prosthetic resident conduct research? Supan, Terry J, CPO. 1995;7:4:142-6.

Residency research, part II: goals of residency research. Shurr, Donald G, CPO, PT. 1995;7:4:147-8.

Residency research, part III: how to do research during residency. Lin, Robert S, CPO. 1995;7:4:149-51.

Survey research and measurement error. Nolinske, Terrie, PhD, OTR/L, CO. 1995;7:2:68-78.

Prosthetics—Lower Extremity

Silicone-only suspension (SOS) with socket-loc and the ring for the lower limb. Haberman, Louis J, CPO. 1995;7:1:2-14.

Prosthetics—Lower Extremity: Below-Knee

Dysvascular amputees: what can we expect? Anderson, Sheryl P, CP. 1995;7:2:43-50.

Physiological gait analysis of type IIIC tibial limb salvage patients versus traumatic transtibial amputees. Nielsen, David H, PhD, PT; Shurr, Donald G, PT, CPO; Macfarlane, Pamela A, PhD; Marco, Lisa M, MPT; Mills, Julie K, MPT; Padgett, Lisa L, MPT; Randall, Jennifer J, MPT; Nepola, James V, MD. 1995;7:3:80-6.

Prosthetics—Lower Extremity: Foot & Ankle

Mechanical outcomes of a rolling-joint prosthetic foot and its performance in the dorsiflexion phase of transtibial am-

(continued on next page)

(continued from previous page)

putee gait. Pitkin, Mark R, PhD. 1995;7:4:114-23.

Prosthetics—Materials & Methods

Efficiency of prosthetic cable and housing. Carlson, Lawrence E, DEng; Veatch, Bradley D, MS; Frey, Daniel D, MS. 1995;7:3:96-9.

Prosthetics—Upper Extremity: Below-Elbow

A high-performance, variable suspension, transradial (below-elbow) prosthesis. Radocy, Robert (Bob), MS; Beiswenger, William D, CPO. 1995;7:2:65-7.

Prosthetics—Upper Extremity: Hand

Prehensor grip for children: a survey of the literature. Shaperman, Julie, MSPH, OTR; LeBlanc, Maurice, MSME, CP. 1995;7:2:61-4.

Voluntary-opening prehensors with adjustable grip force. Frey, Daniel D, MS; Carlson, Lawrence E, DEng; Ramaswamy, Vidya, MS. 1995;7:4:124-31. □

YOU'RE INVITED...

AOPA and the Academy are seeking qualified speakers to present at the 1996 national meetings.

If you are interested and would like to receive the abstract guidelines, please call the meetings department at (703) 836-7116.

AOPA L-Coding Seminars

Where?	When?
Chicago, IL	Oct. 19-20
San Francisco, CA	Nov. 2-3
Atlanta, GA	Nov. 16-17
St. Louis, MO	Jan. 11-12
Dallas, TX	Feb. 15-16

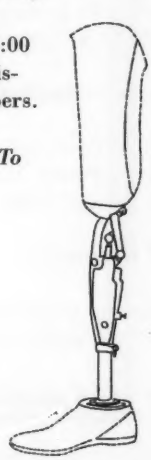
Join L-coding experts who'll share with you important information on coding policies and practices in the changing insurance environment. Learn how to keep-up with and handle L-coding issues quickly and effectively.

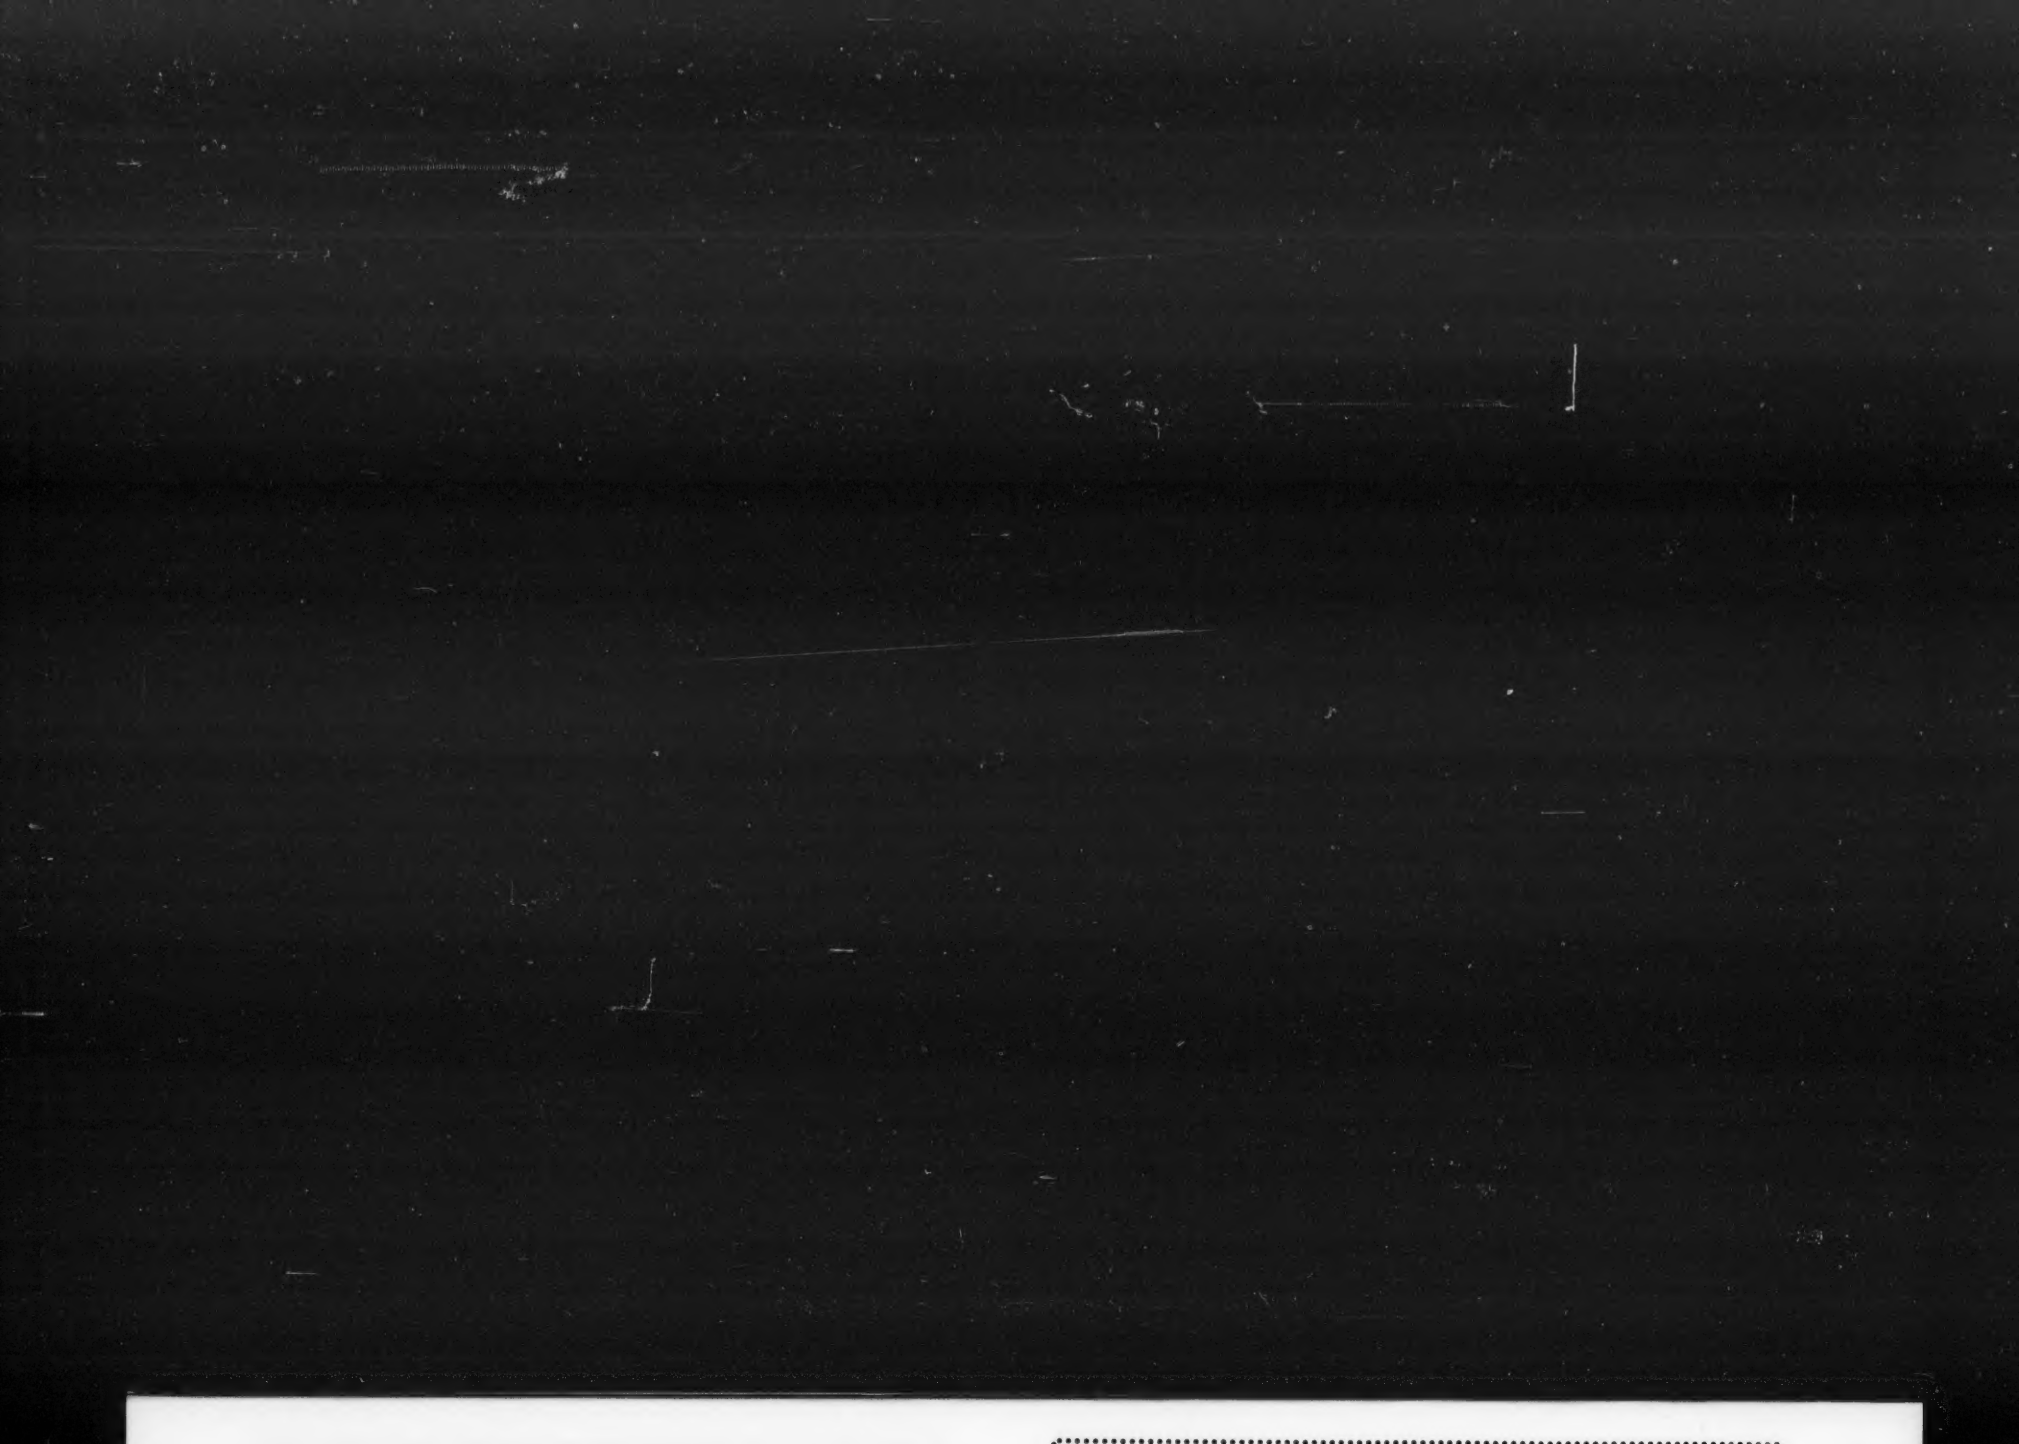
All seminars are scheduled on Thursday from 9:00 am to 5:00 pm and Friday from 9:00 am to 1:00 pm. Seminar pre-registration fees are $175 for members and $275 for non-members.

Seminar attendees will receive a comprehensive course manual. *The Illustrated Guide To Orthotics and Prosthetics* will also be used during the seminars.*

For more information or to register, call the Meetings Department today at (703) 836-7114.

Don't delay–space is limited!





* *The Illustrated Guide* is not included in the registration fee but copies will be available for use and for purchase at the seminar. If you have your own copy, you are encouraged to bring it to the seminar with you.
